Medical Keyboards

Purekeys manufactures easy to disinfect keyboards and mice for use in all medical environments.

All Purekeys medical keyboards combine a completely flat top with the tactile feedback of a normal keyboard. The flat top surface is made of a high grade silicone rubber and can be cleaned with any hospital grade disinfectant. With cleaning time less than 5 seconds, best practice to clean between patients can be easily achieved.

**Advantages:**
- Flat surface that is easy to clean and disinfect between patients
- The Purekeys keyboard has a dedicated Clean Key that allows to disable input when cleaning
- Can be cleaned with all hospital grade disinfectants
- Tactile feedback of a normal keyboard
- Plug and Play compatible with all Windows-based PCs
- White color has a fresh and clean look
Medical Keyboards

- Real scissor type keys with excellent tactile key response
- 100% flat surface: easy to clean without the need for immersion, no raised surfaces where bacteria can hide
- Works with any Microsoft Windows-based PC
- Dedicated Clean Key to quickly disable input during cleaning procedures
- Silicone based cover, non allergenic, can be cleaned with hospital grade antibacterial fluids

100% flat surface: easy to clean without the need for immersion, no raised surfaces where bacteria can hide
